

Before the "No Call" list, we were getting two calls per evening, usually from 8:00p.m. to 10:00p.m. I would also get some in the morning as I was getting my kids off to school. They were all unnecessary calls and really annoying. Since our name has been on the "No Call" list, we haven't gotten any more calls and it has been a wonderful blessing. These companies do not need to infringe on peoples private time - it would be like me walking into their home or office, unexpectedly, and bothering them. They can send their stuff through the mail and if I want to read it I will - when I want to! As long as we have a mail service - and there isn't a ban on junk mail - they do not need to call my home. P.S. my phone number is unlisted and that didn't even stop them. Please DO NOT get rid of or change Wisconsin's "Do Not Call" list. I plan on being a life long member.

Thank You,
Mary Maly
